missile radar

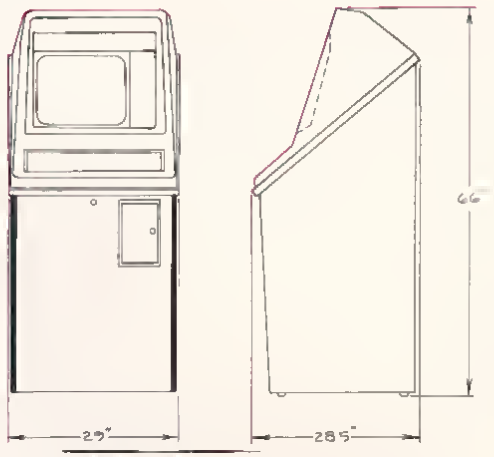
- Here Comes The Enemy Warhead!
- Set The Radar Missile In Position!
- Fire!
- Another Enemy Warhead Is Destroyed!



Shipping Weight
240 lbs.

Power Requirements
120 watts

All the action takes place on an exciting radar screen. Radar Missile challenges the player to quickly coordinate missile position and firing time to intercept and destroy the fast flying warheads.
Enemy warheads arc over screen and explode on ground if not destroyed.
Intense, realistic
Intense, realistic sounds add to the tension and excitement.
Radar screen brightens and fades just like a real radar set.
